

METALLURGIA

THE BRITISH JOURNAL OF METALS

Index to Vol. XV.

November, 1936—April, 1937.

KENNEDY PRESS LIMITED

— 21, Albion Street —

GAYTHORN, MANCHESTER 1

INDEX

| A | Page |
|---|---------|
| Aluminium as a Decorative Medium | 4 |
| Aluminium and Aluminium Alloy Sheet. By Wm. Ashcroft | 11-12 |
| Alloy Constructional Steels, Present Trend of. J. A. Jones | 21-22 |
| Aircraft Materials, B.S.S. for | 22 |
| Application of Aluminium and its Alloys, Progress in the, Developments and. By G. A. Anderson, B.A. | 33-36 |
| Alloys, Recent trends in the development and use of Copper. By a Special Contributor | 42-44 |
| Annual Meeting in Dusseldorf, Verein Deutscher Eisenhüttenleute | 47-48 |
| Aluminium Crystals, Mechanical Properties and Single and Multiple By G. Welter and T. Mojmir | 49-53 |
| Aspects of Industrial Hygiene, Some Aluminium and its Alloys. By Wm. Ashcroft | 83-84 |
| Aluminium, Electric Furnaces for. By A. J. G. Smith | 85-86 |
| Alloys, Magnesium. Dr. C. H. Desch, F.R.S. | 89-92 |
| Aluminium, The Electric Conductivity of | 104 |
| Analytical Control of Chromium Plating Solutions. By E. E. Halls | 105-107 |
| Alloys, Silver-Copper-Silicon. T. C. Jarrett | 107 |
| Atmospheres, The Change of Magnetic Properties of Ferrie Hydroxides by Heating in Different | 112 |
| Alloy Cylinder Heads, Copper. N. P. C. Neave | 132 |
| Aluminium Production in Canada | 140 |
| Alloy Structure, Problems of. Professor W. L. Bragg | 147-148 |
| Architectural Uses of Aluminium Applied in the Building of New Laboratories | 169-171 |
| Alloy Steel Analysis, Modern Methods of. By B. Bagshaw, Assoc. Met. | 171-172 |
| Anodic Coating of Magnesium Alloys. R. W. Buzzard, H. Wilson | 181 |
| Aluminium Alloy RR.56 | 184 |
| B | |
| Billets, Casting Non-Ferrous. By Gilbert Evans | 7-10 |
| Beryllium and Titanium, Copper Castings Alloyed with. By G. F. Comstock | 19-20 |
| British Cast Iron Research Association, The | 22 |
| B.S.S. for Aircraft Materials | 22 |
| Brass Slags, Utilising. By C. C. Downie | 27 |
| Base Metal Production, Canada's | 102 |
| Britain and World Trade | 103 |
| British Industries Fair, The | 113-127 |
| Burners for Heat Treatment Furnaces, Gas | 155-156 |
| Building of New Laboratories, Architectural Uses of Aluminium Applied in the | 169-171 |
| Brighter Britain | 173 |
| Bright Pickling of Copper and Brass. By E. E. Halls | 175-176 |

| C | Page |
|--|---------|
| Cast Iron, Malleable—Past, Present and Future | 3 |
| Control Restriction to Satisfy Needs of Industrial Activity, Easy | 5 |
| Casting Non-Ferrous Billets. By Gilbert Evans | 7-10 |
| Copper Castings Alloyed with Beryllium and Titanium. G. F. Comstock | 19-20 |
| Constructional Steels, Present Trend of Alloy. J. A. Jones | 21-22 |
| Cast Iron Research Association, The British | 22 |
| Cold Rolling Deep Drawing Steels. By J. L. Turner | 39-41 |
| Copper Alloys, Recent Trends in the Development and Use of. By a Special Contributor | 42-44 |
| Crystals, Mechanical Properties of Single and Multiple Aluminium. By G. Welter and T. Mojmir | 49-53 |
| Cast Iron, Progress in. By L. W. Bolton, A.M.I.Mech.E. | 69-70 |
| Cheaper Nickel | 72 |
| Cold Rolling Deep-Drawing Steels. Part 2. By J. L. Turner | 73-75 |
| Chemical Industry, Metallurgical Problems in the. Dr. N. P. Inglis | 80 |
| Cladding Steel, Gas Furnaces for | 82 |
| Cast Irons in Engineering, Some Nickel | 99-101 |
| Canada's Base Metal Production | 102 |
| Conductivity of Aluminium, The Electrical | 104 |
| Chromium Plating Solutions, Analytical Control of. By E. E. Halls | 105-107 |
| Controlled Grain Size in Steel. Dr. T. Swinden. Mr. G. R. Bolsover | 108 |
| Cold Rolling Deep-Drawing Steels. By J. L. Turner | 109-111 |
| Change of Magnetic Properties of Ferrie Hydroxides by Heating in Different Atmospheres. The | 112 |
| Cast Irons, Special. J. G. Pearce | 129-130 |
| Copper Alloy Cylinder Heads. N. P. C. Neave | 132 |
| Canada, Aluminium Production in | 140 |
| Corrosion. Dr. W. H. Hatfield, F.R.S. | 148 |
| Copper and Brass, Bright Pickling of. By E. E. Halls | 175-176 |
| Cold Rolling Strip Metal | 177-178 |
| Coating of Magnesium Alloys, Anodic. B. R. Buzzard. J. H. Wilson | 181 |
| Cold Working of Metals, Lubrication in the. R. Northmore | 191-192 |
| Corrosion Tests of Welded Low Carbon Stainless Steel | 192 |
| D | |
| Decorative Medium, Aluminium as a Development in Soviet Metallurgy, Production | 20 |
| Die Casting, High Strength Sand and | 26 |
| Developments and Application of Aluminium and Its Alloys, Progress in the. By G. A. Anderson, B.A. | 33-36 |
| Deep-Drawing Steels, Cold Rolling. By J. L. Turner | 39-41 |

| Page | |
|---|---------|
| Developments and Use of Copper Alloys, Recent Trends in the. By a Special Contributor | 42-44 |
| Developments in Electric Heat Treatment Furnaces. By A. G. Robiette, B.Sc. | 57-60 |
| Developments in the Tin Industry. By a Special Correspondent | 61-62 |
| Drives for Rolling Mills, Electric | 67-68 |
| Deep-Drawing Steels, Cold Rolling. Part 2. By J. L. Turner | 73-75 |
| Developments in Methods for Seamless Tube Manufacture, Improvements and | 76 |
| Desilvering Process, The Parkes. By C. C. Downie | 93-94 |
| Deep-Drawing Steels, Cold Rolling. Part 3. By J. L. Turner | 109-111 |
| Drop Forging. P. Rowley | 164-165 |
| Distortion of Grains by Fatigue and Static Stressing. C. S. Barrett | 165 |
| Drop Forgings, Some Notes on | 185-186 |
| E | |
| Easing Control Restriction to Satisfy Needs of Industrial Activity | 5 |
| Economiser, The Steel Tuber | 24 |
| Electric Heat Treatment Furnaces, Developments in. By A. G. Robiette, B.Sc. | 57-60 |
| Electric Drives for Rolling Mills | 67-68 |
| Electric Furnaces for Aluminium. By A. J. G. Smith | 85-86 |
| Engineering, Some Nickel Cast Irons in | 99-101 |
| Electrical Conductivity of Aluminium, The | 104 |
| Engineering, Grey Iron and Its Application to. A. Campion | 112 |
| Electrodeposition Conference, The International | 157-158 |
| Electrical Industry, Metallurgical Progress and the. By L. Sander-son | 187-188 |
| F | |
| Facilities into Yukon Mining Areas, Transport | 6 |
| Furnaces, Developments in Electric Heat-Treatment. By A. G. Robiette, B.Sc. | 57-60 |
| Furnace Settings in the Iron and Steel Industries | 62-63 |
| Ferrous and Non-Ferrous Metals | 71 |
| Furnace for "Cladding" Steel, Gas Furnaces for Aluminium, Electric. A. J. G. Smith | 85-86 |
| Factors which Influence the Production of Seamless Tubes, Some. By Gilbert Evans | 87-88 |
| Ferrie Hydroxides by Heating in Different Atmospheres, The Change of Magnetic Properties of | 112 |
| Finishing Shop Practice, Inhibited Pickling Solutions in General. By P. Mabb | 141-145 |
| Furnaces, Gas Burners for Heat Treatment | 155-156 |
| Forging, Drop. P. Rowley | 164-165 |
| Fatigue and Static Stressing, Distortion of Grains by. C. S. Barrett | 165 |
| Forgings, Some Notes on Drop | 185-186 |

| G | Page |
|---|-------------------------|
| Gas Furnaces for "Cladding" Steel | 82 |
| Grain Size in Steel, Controlled. | |
| Dr. T. Swinden, G. R. Bolsover.. | 108 |
| Grey Iron and Its Application to Engineering. | A. Campion..... 112 |
| General Finishing Shop Practice, Inhibited Pickling Solutions in. | By P. Mabb..... 141-145 |
| Gas Burners for Heat-Treatment Furnaces | 155-156 |
| Grains by Fatigue and Static Stressing, Distortion of. | C. S. Barrett |
| | 165 |
| Growth of the Platinum Industry.. | 188 |

| H | Page |
|--|------------------------------------|
| High Strength Sand and Die Casting | 26 |
| High Temperatures, Steels for Use at | 29 |
| Heat-Treatment Furnaces, Developments in Electric. | By A. G. Robiette, B.Sc..... 57-60 |
| Hygiene, Some Aspects of Industrial Hydroxides by Heating in Different Atmospheres, The Change of Magnetic Properties of | 112 |
| Heads, Copper Alloy Cylinder | 132 |
| Heat Treatment | 139 |
| Heat Treatment Furnaces, Gas Burners for | 155-156 |
| Heat Treatment of Structural Steel, The. | By Loxley..... 179-181 |

| I | Page |
|--|---|
| Iron—Past, Present and Future in Malleable Cast. | By C. H. Plant |
| | 3 |
| Industrial Activity, Easing Control Restriction to Satisfy Needs of.. | 5 |
| Iron and Steel Production, Progress in. Part 2 | 13-17 |
| Industrial Progress | 37 |
| Industrial Hygiene, Some Aspects of | 60 |
| Iron and Steel Industries, Furnace Settings in the | 62-63 |
| Iron, Progress in Cast. | By L. W. Bolton, A.M.I.Mech.E. 69-70 |
| Improvements and Developments in Methods for Seamless Tube Manufacture | 76 |
| Irons in Engineering, Some Nickel Cast | 99-101 |
| Iron and its Application to Engineering, Grey. | A. Campion..... 112 |
| Irons, Special Cast. | J. G. Pearce 129-130 |
| Inhibited Pickling Solutions in General Finishing Shop Practice. | By P. Mabb..... 141-145 |
| Institute of Metals, The..... | 151-154 |
| International Electrodeposition Conference, The..... | 157-158 |
| International Association for Testing Materials | 189-190 |

| L | Page |
|--|---------------------------|
| Laboratories, Architectural Uses of Aluminium Applied in the Building of New | 169-171 |
| Lubrication in the Cold Working of Metals. | R. Northmore..... 191-192 |
| Low Carbon Stainless Steels, Corrosion Tests of | 192 |

| M | Page |
|--|---------------------------------------|
| Malleable Cast Iron—Past, Present and Future. | C. H. Plant..... 3 |
| Mining Areas, Transport Facilities into Yukon | 6 |
| Metallurgy, Production Development in Soviet. | By a Special Correspondent..... 20 |
| Materials, B.S.S. for Aircraft | 22 |
| Metal Tubes, Non-Ferrous. | W. L. Govier |
| | 23-24 |
| Mechanical Properties of Single and Multiple Aluminium Crystals. | By G. Welter and T. Mojmir..... 49-53 |

| | Page |
|---|---------|
| Metals, Ferrous and Non-Ferrous.. | 71 |
| Magnesium, Output of..... | 72 |
| Methods for Seamless Tube Manu- facture, Improvements and De- velopments in..... | 76 |
| Mild Steel, Some Measurements in the Yield Point Range of. By G. Welter..... | 77-79 |
| Metallurgical Problems in the Chemical Industry. Dr. N. P. Inglis..... | 80 |
| Magnesium Alloys. Dr. C. H. Desch..... | 89-92 |
| Metallurgy, Powder. J. C. Chaston, B.Sc..... | 95-96 |
| Metal Production, Canada's Base.. | 102 |
| Magnetic Properties of Ferric Hy- droxides by Heating in Different Atmospheres, The Change of.... | 112 |
| Motor Vehicle, Research in Relation to the. Dr. T. Swinden..... | 159-160 |
| Modern Methods of Alloy Steel Analysis. By B. Bagshawe, Assoc. Met..... | 171-172 |
| Metal, Cold-Rolling Strip..... | 177-178 |
| Magnesium Alloys, Anodic Coating of..... | 181 |
| Metallurgical Progress and the Elec- trical Industry. By L. Sanderson | 187-188 |
| Materials, International Association for Testing..... | 189-190 |

| N | Page |
|--|----------------------------|
| Needs of Industrial Activity, Easing Control Restriction to Satisfy... | 5 |
| Non-Ferrous Billets, Casting. | By Gilbert Evans..... 7-10 |
| Non-Ferrous Metal Tubes. | W. L. Govier |
| | 23-24 |
| Non-Ferrous Metals and Ferrous... | 71 |
| Nickel, Cheaper | 72 |
| Nickel Cast Irons in Engineering, Some | 99-101 |
| Non-Ferrous Welding | 146 |
| Notes on Drop-Forging, Some..... | 185-186 |

| O | Page |
